BET YOU'VE WONDERED WHO KEEPS THOSE PARKS along Highway 90 in Hondo so pretty and well groomed. The answer is Ed Hernandez, shown cutting grass from around the Pinkie rose bed in front of the Memorial. His "bosses" are members of the

Hondo Garden Club highway beautification committee, but Ed, who began gardening about 14 years ago for Dr. W. H. Smith, seldom needs to be told how.

Natalia Land Owners Discuss Possibility Of Liquidation

4 Preachers Leave Hondo Going To The Dogs?

Hondo preachers are either giving up the city as a hopeless place or else they feel that the folks are so good they are safe in leaving their pulpits for a Sunday.

The Rev. Harold B. Cornelison of First Baptist Church is in Kansas City, Mo., attending the Southern Baptist Convention and has secured D. B. South, evangelist of San Antonio, to speak Sunday.

Pastor K. Windecker of St. Paul's Lutheran is vacationing, and while he is away, the Rev. Leo Benorden of Castroville will fill the pulpit at 7:30 p. m.

The Rev. Harold Ehlinger of St. John's Catholic is also on vacation and his duties are being taken care of by the other resident priests, the Rev. Benjamin Bonazza and the Rev. Brian Crookes. Father Crookes has just come to Hondo from St. Mary's Magdalene parish of San Antonio.

No, we're not through yet, because this is "conference time" for Methodist ministers and the Rev. L. A. McDaniel of First Methodist is attending meetings in San Antonio.

On hand to speak to the congregation Sunday morning will be the Rev. Dick Fly, preacher at Rock Springs and son of Mayor and Mrs. O. A. Fly. At the evening service a missionary from Argentina, the Rev. Alberto Merubia, will speak.

FORGER NABBED

A man charged with forgery of three checks in Medina County was apprehended last week at Anson. He is Charles Henry Coker.

County stores involved were Frontier Grocery, Savage Grocery and Loggins and Lilly of Devine back on March 27. He will be brought to trail here in June. Coker has already received a sentence of three years in the penitentiary on the same charge in Anson. He is also wanted in Brown, Coleman and Atascosa Counties.

Eight Demos To State Convention

Medina County sent delegates to the state Democratic convention May 22, including Joe Briscoe of Devine, chairman of the delegation, Mr. and Mrs. Riggs Shepperd, Francis Richter and James Duncan of Hondo, Henry Moss, J. D. Klingeman and W. W. Bain of Devine.

They were planning to take with them resolutions adopted at the county convention earlier this month favoring Senator Lyndon Johnson as favorite son candidate for the presidency, and as chairman of the Texas delegation to the national convention.

Anybody want to buy a lake? Medina Lake may be sold, according to discussions now going on among landowners of the Improvement District No. 1, which owns the dam and lake as a private corporation.

Thinking of some, according to a reliable source, is that Corpus Christi or San Antonio might be interested in purchasing the dam and its water resources to improve the storage facilities for their municipalities.

Reason for the talk is that several years have passed with insufficient water for irrigation of the land originally served by the dam, and canals have deteriorated in the meantime. When normal rainfall refills the lake, the expense of repairing canals would require another big bond issue, and there is so much land subject to irrigation that the lake can not supply the required amount of water.

When full, the lake holds 245,010 acre feet of water, and by raising the spillway a few feet, the capacity could be doubled.

Bonded indebtedness is now \$344,000, and is scheduled to be paid out by 1962. The debt equals \$10 an acre for the land covered by the district.

A. L. HAEGELIN FINAL RITES WEDNESDAY

Funeral services were held in Hondo on Wednesday, May 16, for Adolph Louis Haegelin, 76, who died of a coronary occlusion at his home early Tuesday morning.

A native of Medina County, Mr. Haegelin was born near Rio Medina on May 27, 1879. His parents were Alexander Haegelin and Mary Biry Haegelin. He attended school in both Rio Medina and Castroville and on Dec. 30, 1903, he married Miss Louise Riff, who survives him.

A member of the Catholic church, he belonged to the Holy Name Society. He was also a member of Herman Sons Lodge.

The Rev. Brian Crookes officiated in the services held at Horger Funeral Home and St. John's Catholic Church. Burial was in the Catholic Cemetery, Hondo. Pall bearers were Harry Filleman, Henry Flory, Grayford Rogers, Charles Tendre, Henry Graff and Frank Vance.

Warren S. Lilly, 87, Devine businessman and rancher, died in a San Antonio hospital Tuesday evening.

Lilly was a former bank president and operator of a general store in Devine.

Services were scheduled for 4 p. m. Thursday at Devine Methodist Church.

He is survived by one son, Travis Lilly, of Devine, and three daughters, Mrs. Robbie Wats on and Mrs. Faye Young of Devine, and Mrs. Eula Riley of Laredo.

County Superintendent of schools, C. F. Schweers, has announced that all transfers must be in his office at the court house by June 1.

Any child living in one district and wishing to transfer may do so by notifying the superintendent. However, districts into which transfers are made must be contiguous to the district in which the student lives.

Sonic Boom Shakes Area During Saturday Show

Hondo's experimental "Sonic Boom" Saturday was a bit more of a demonstration of modern jet aircraft than expected.

Shock waves generated when the plane or planes passed through the sound barrier shattered a large plate glass window at the Jack Winkler Buick Company.

Original plans were to aim the plane so that the principal shock would go toward the northwest corner of the airfield, where there was little chance of any damage or exceptional loud noise.

A Navy plane piloted by George Gilbert was to have created the planned "sonic boom" but his

attempt did not produce any great amount of noise at the field.

Another flight of four F-100's headed east over Hondo and a burst of speed over the field sent a shock wave into the city that did give everyone in town—and for several miles around—a taste of what to expect when high speed flight starts out.

Reports have come in from as far away as Yancey, Mrs. Emil Bohmfalk thought at first an earthquake was happening. Mrs. Carolyn Mitchell said their window screens flapped and the noise made her think a gasoline or butane tank had exploded.

At the J. W. Hollaway place, Mrs. Hollaway thought her chimney had fallen on the roof and their two dogs stood up and howled in protest.

Cows and chickens around the county stampeded, and at the Stanley Mumme house, clothes hanging on the line were wrapped around the wire although no breeze was blowing at the time. Sabinal reported dishes being rattled, and some observers thought this might have been the result of the original scheduled attempt by Gilbert, which was barely audible at the base.

Lt. Col. George Reinburg, commander of the military detachment at Hondo Air Base, said that the noise is caused when a high speed airplane passes beyond the speed of sound, or drops below the speed of sound after going faster. As a result, there are two reports. He said that when a plane approaches that speed, the air can be seen building up around the nose of the plane, and that it looks milky white. When the plane picks up enough speed to go faster than sound, the air reacts violently, and the resulting shock travels out in front of the plane.

He said the F-100 can travel fast enough to break the sound barrier while headed straight up.

May 26, 1906

The first line of reading matter from the issue of the above date is a complimentary note quoted from the Val Verde County News: "The Hondo Anvil Herald, one of our exchange table, comes out in the last edition, with a new head line, which adds materially to its looks."

Hon. John N. Garner announced for re-election to Congress from the 15th District, and Jno T. Briscoe announces for Representative from the 9th.

At a meeting held at the courthouse it was decided to open a German private school on the first Monday in June to continue for two months, Prof. A. B. Brucks to teach.

A dispatch from Austin is to the effect that the Court of Criminal Appeals had affirmed the death sentence of Henry Brown, for the murder of one Taylor, a fellow convict, while they were working on the railroad west

VALUATION LOWERED ON B-M-A FARMS

The Medina County Commissioners Court, meeting as a board of equalization, agreed to lower the valuation of lands in the Bexar-Medina-Atascosa Water Improvement District No. 1.

Commonly known as the Medina Irrigated Farms in the southeast part of the county, the acreage is irrigated and had a \$18 valuation on it. The court agreed to lower this to \$10, reserving the right to again raise the valuation in event irrigation water ever becomes available once more.

Memorial Services To Begin With Parade

Memorial Day Services are scheduled in Hondo for Wednesday, May 30, with a parade set to start soon after 9:30.

The Hondo Air Base drum and bugle corps, which won first place at the Bandera Stompede recently, will participate, along with local organizations.

In the parade will be units from the Veterans of Foreign Wars, Medina Post 3891, Hal Jones Post, Pruneda Post and Ollie Grant Post of the American Legion, National Guard, Boy Scouts and Camp Fire Girls.

The parade will form at Avenue N and 20th street at 9:30. They will march down the highway to Avenue M (stop and go light), go north to 18th street,

where they will turn east and proceed in front of the bank to Avenue K. At that corner they will turn south and proceed to the Memorial Plaza, where the ceremonies will take place.

Memorial services will consist of a tribute to deceased service personnel, a recitation of the pledge of allegiance by the crowd and singing.

Main speaker for the morning has not been revealed.

Stores Closed

The Retail Merchants Committee of the Hondo Chamber of Commerce has announced that stores in Hondo will be closed from 9 til 12 Wednesday morning in observance of the day.

Makes Forced Landing Summer Program Gains \$52

A-C Wallace S. Gustafson Jr. escaped injury Monday night when he made a wheels up forced landing on Matagorda Island, near Rockport.

Cadet Gustafson was on a local cross-country night navigation flight and became lost. He ran out of fuel before he could be located by ground radar, and had to come down in the sand.

There was no apparent violation of flying regulations, and Gustafson did a good job of landing under the circumstances, according to an official spokesman at Hondo Air Base, where the cadet is in training. He is a native of Hibbing, Minnesota.

The Summer Recreation Program was approximately \$52 better off following the dance recital of students of Mrs. Frank O'Neill Tuesday night in the Hondo Elementary School auditorium.

Although admission charges were only 30 cents and 15 cents, the receipts came up to the \$52 level.

Eighteen numbers were presented by the students at the show which had a Mardi Gras Festival as its theme. Elaborate costumes added greatly to the color of the presentation.

Mrs. O'Neill, whose home is in Pearsall, has taught dancing in Hondo each Tuesday afternoon since September, and this recital was the final meeting of the year.

RUMINATES SOME
ON THE POLITICAL
OUTLOOK

AS PEOPLE ARE THINKING

As a consequence of the interest evoked by the party primaries over the state the past week, everybody is thinking about politics.

It would be a bold commentator who would attempt to evaluate, or even analyze that thought at the present moment.

However, there are some bold enough to offer suggestions, and wherever there is doubt or uncertainty about any pending matter all suggestions are important, for out of the maze of misunderstanding must come the final solution if there is to be any progress.

Apogee of the apparent harmony in Texas Republican ranks and the one-sided result of the state-wide Democratic primaries, the San Antonio Light opines editorially as follows:

While Mr. Eisenhower and Mr. Nixon are coasting to the November election as the undisputed candidates of the GOP, Texas may well set the pattern for the Democrats.

If ever party loyalty was needed, it is now, for the Democrats have the difficult task of selecting two candidates from a rather broad field of evenly-matched contenders.

The 48 states have different laws, different customs, different ways of speaking, but they are united in devotion to the nation's welfare.

Given a Texas delegation united in this way, Speaker Sam Rayburn and Sen. Lyndon Johnson, from their key positions in Washington, will be able to carry their message to the Democratic national convention and set an example of harmony to the party as a whole.

—FD—

Now comes the San Antonio Express along and notes that in a poll of Democratic congressmen, among whom of all groups there needs to be harmony, with this:

Only 40 per cent of the 280 Democrats in Congress answered the questionnaire but the answers showed a surprising loyalty to Stevenson among Southerners in the Senate — 23 of the 45 who responded picked Stevenson.

"Averell Harriman got no support outside his own area."

"Symington and Johnson showed up best among Southerners but Johnson got no support outside the South. Kefauver was strongest in the West—though he swept the Midwest preference primaries."

"If the poll proves anything, it must be that most of the Democrats in Congress choose to play their cards close to the vests, realizing it's still a long way until the national convention, where dark-horse candidates have come from out of nowhere before."

—FD—

It is possible the reluctance of so many Congressmen to declare themselves now is that they sense the possibility of such a dark horse coming forth—even whom the "horse" may be?

Commenting along the same line, David Lawrence says in a recent column:

"Trumanites abound throughout the Democratic Party—men who think as their hero does and who feel he is the only man who can make a rough-and-tumble campaign against Ike."

"The Democratic Party of today is basically a Truman party. The former president really can have the nomination again if he wants it."

—FD—

"Harry Truman knows that there is no candidate who will make the vigorous campaign he himself would wage against President Eisenhower. Mr. Truman realizes that the verdict of 1952 was construed as a repudiation of his own administration, and that's why he wants to make a comeback."

—FD—

Is it possible, may we ask, that no matter how or what people are thinking, we are destined to "come back" with more of Truman?

More Plans For Junior, Senior Leagues

Other trophies were won by Jim Guerra of Rio Grande City and Joe Garcia of Pearsall.

The Power of Memorial Day

by Dr. Norman Vincent Peale

I had the privilege of growing up in small Ohio communities in the early part of this century, and one of my most inspirational memories centers around Memorial Day and the old soldiers of the Civil War.

To me, Memorial Day was one of the most moving of all the national holidays. I was stirred by the speeches and martial music from the bandstand or cemetery on what we called "Decoration Day." There was something about the newness of life that the Spring had brought; soft sunshine falling on the fresh green grass of early summer, the misty hills in the distance, the sound of stirring national songs, and above all, the softly flapping flag in the gentle breeze as the speaker told us of our country, the deep devotion of its heroes, and recounted once more the stirring episodes of our heroic past.

And many a lazy summer afternoon, I sat on the coping around the old courthouse listening to the veterans of the Civil War tell of their experiences in the epic struggle between the States. A boy's imagination quickly sent him off behind long columns of blue or grey, and to him, such names as Antietam, The Wilderness, Shiloh, and Gettysburg became very real and meaningful.

Those old soldiers used to talk gratefully of Lincoln's insistence that those who had borne the heat of the battle and the burden of the struggle, the widow and the orphan, were to be given not charity, but their rightful due as the dependents of those brave men who had fought to preserve liberty and to keep the Union intact. It was regarded as a sacred duty of the nation, and the nation kept faith with its veterans.

In those days, as now, were many who had been disabled by the struggle. Their ability to compete in life had been reduced by wounds suffered in battle. Even as a boy I remember hearing how it seemed they were thought of only on such days as Memorial Day, when orators, fervent in their patriotism, remembered, if only for a day, the long continuing sacrifice made not by those who had died in battle, but by the disabled who were to live for many years following the great struggle.

The heroes of World War I and World War II and the Korean War are, of course, men who, with no concern for themselves, gave their lives that freedom might live. We can never do them adequate honor. And, we must never forget them. They died in their young life, forsaking the opportunities of the years that the rest of us might live and develop our highest hopes and dreams.

However, there are other living heroes who deprived themselves of either physical, emotional, or mental health for us and for their fellow countrymen. It would be as wrong for us to neglect or forget them as their buddies who today sleep on some Pacific Island or in a European cemetery. A hero dead or a hero maimed and disabled are both due our equal gratitude and our unceasing devotion.

We must never forget that the most effective way of honoring those who have died is to remember the living disabled, that their lives may be rich and full. They are a great asset to our country as the living embodiment of devotion to freedom. A country is recreant indeed which does not everlastingly keep alive grateful appreciation to those who suffered disability to perpetuate everything that we Americans hold dear.

There could be no better time than on Memorial Day to resolve that we shall gratefully support the honored men and women who have suffered disability from the wars of the United States.

(Written especially for the Disabled American Veterans, the Ident-a-Tag organization)

PERSONAL APPEARANCE

By Jerry June Berger

In naming his ambition for last week's graduation section, local senior, DWAYNE HICKMAN, listed going to college and majoring in philosophy. Several people noticed this and accused us of not spelling either philosophy or psychology right, but the fact is, philosophy is a major too. That know-it-all Webster says that it is "the study of literature, grammar and linguistics" and we'd say that DWAYNE has a head start by knowing the official name of that major!

Each Thursday afternoon right after school about a dozen little boys come by the Anvil Herald office to sell papers and earn themselves some "spending money". They get to keep 4 cents on each paper they sell, so they are their own little managers. On May 17, both of the JOHN MCANALLY boys, BOBBY and JOHNNY, came by, checked out some papers and returned after selling exactly four papers apiece. Each received 16 cents for their efforts and walking out the front door one commented to the other, "Well, now we've earned enough to get to go see 'Lady and the Tramp'."

As shocked as he'll ever be was MILTON RENKEN Saturday morning when that sonic boom shattered a plate glass window out at JACK WINKLERS. MILTON happened to be standing out front at the time and when it happened, he very nearly took off like the jet that had sent the wave!

Following the local excitement about the explosion, we were interested in hearing from new TAI manager, WALTER GUNSTREAM, that these sonic booms may actually be used as a defense weapon. Jets crossing the sound barrier can cave in roofs on buildings, overturn trucks and perform other attacks on an "enemy" by aiming their plane properly.

Instead Of Federal Government

Since May 7 Taxpayer May Work For Himself

You probably didn't know it, but Monday, May 7, was a very important day in your life — if you are an average citizen, financially speaking.

That Monday was designated "National Tax Freedom Holiday." And it was the first day of this year that the money you earned was really yours to spend.

Why is this so? The answer is as simple as it is grim. All that the average American earned from January 1 to May 7 had to be paid out in taxes, direct or indirect, to one unit of government or another.

In other words, the average taxpayer works more than four months of the year to meet his tax bill. And remember — this is true of the masses of people with moderate incomes, not the few in the big brackets. The fight for efficiency and economy in government is your fight.

SECO PHILOSOPHER EXPLAINS

A New Law Of Economics On Thrift, Which Probably Invented Himself

Editor's note: The Seco Philosopher on his Johnson grass farm discusses economics this week, which he's as good at as he is anything else, if you follow us.

Dear editor:

Everybody is worried about the farmer these days, but that's because they don't understand the long-range situation.

I got to thinking about this after I read in a magazine which I picked up for a few minutes in the drug store in town the other day. I know druggists object to people reading their magazines without buying em but I've seen druggists out driving around looking at my cows without offering to buy any. I figure it's even, at any rate, what I read was an article saying that farmers are whipping the situation they're in by taking jobs in town.

A neighbor of mine says farming has come to a sorry state when a farmer has to work in town to stay on the farm in the country, but I don't look at it that way. That is, while personally I'm not interested in working in town, I'm not even very interest-

ed in working in the country, it's all right with me if others want to.

Actually, they're only following one of the laws of economics, which apparently a lot of people don't understand.

The law is that during a depression city people go to the farm to work to stay alive, and during prosperity, farmers go to town to work to stay alive.

There's nothing wrong with this law, but you've got to understand it to get along.

You've got to remember that prosperity for everybody is fine, but prosperity for everybody all at the same time is a reckless sort of thing. It's sort of like having everybody save all his money at the same time. If you're going to get ahead, there's got to be somebody left you can get ahead of. Thrift and economy are fine things, but you get everybody to practicing it all at the same time and business would dry up like a water hole in a long drought.

This country needs thrifty people, but they ought to remember that a certain part of the advantage of their thriftiness is based on the free-spending of others. There's nothing better for the stability of the country than a savings account, but you've got to remember also if everybody saved everything, the lending business would be a tough go. As I see it, this country's economy is based on two things: thrift and the no-down-payment.

Yours faithfully,
J. A.

Buick SUPER 6-Passenger 4-Door Riviera

When it purrs, you reign

YOU CAN hardly hear its whispered might—but man, you sure can feel it.

It's power almost without limit—power that humbles the hills, melts the miles, makes you monarch of all you survey.

For this is a new Buick—a '56 Buick—sparked by the most potent engine in Buick annals—a 322-cubic-inch V8 with a crackling high compression of 9.5 to 1.

But what makes you feel even more like boss-man of the highway is the great new advance in Variable Pitch Dynaflo.

First time you tickle the gas pedal you'll know what we mean.

Now—smack in the top inch of gas pedal travel—right where you save gas every turn of the wheels—you get a swift, sure and supremely positive new getaway response in an instant.

For smooth and nimble performance—for sheer mastery in traffic—nothing like it ever was.

And that's just part of it. When you need a still greater flow of get-up-and-go for safety's sake, you merely switch the pitch and you zoom out of tight spots.

So come rule the roost in this '56 Buick.

Come drive a car with 127 gorgeous inches of wheelbase to give it regal room and a ride that's fit for a king.

Try out Buick's new steering—new center-grooved brakes—new direct-acting shock

absorbers with triple the former volume of jounce-cushioning oil.

Learn how it feels to boss a car that looks like royalty and acts the part to perfection.

We promise—you'll practically purr with delight at the wheel of this dazzler—especially when you discover how easily you can make it your own.

What do you say—shall we expect you today?

*New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.

Mrs. R. W. Speece and Mrs. Bonita Proctor spent the weekend in Galveston. Mrs. Speece's son, Russell, has had surgery two times recently and will be in a hospital in Galveston for several weeks.

The Medina Valley Soil Conservation District Supervisors met Wednesday and approved conservation plans for T. W. Wheeler, W. T. Riley, James Isenhower,

Alvin Bader, Van De Walle & Sons, R. D. Burden, A. J. Hardt, B. L. Robinson, E. C. Buckley, Glen B. Gooding, J. R. Wurzbach, Emiel Van Damme and Charles Sweat.

The Supervisors voted to enter the District in the Nation Wide Goodyear Soil Conservation Contest.

John Tom Kirby, Chairman of the board, presented Albert Schiffer's with a dealer district award. To be eligible for this award one must participate in most of all the district activities. Schiffer meets with the Supervisors every time they meet, keeps the minutes of the meetings, keeps the books, and is custodian of all the district equipment.

Cities are only clearing houses for products of the land and as soil goes, so go jobs and standards of living. The manner in which we manage our land resources in the future will be reflected in the moral, physical, and economic lives of every man, woman, and child in America.

In carrying out their conservation plans, for better distribution of grazing, the following have completed tanks: Ben Oefinger, E. C. Buckley, August Lienweber and Horace Cox.

Allen and Mitchell Koch have chained 300 acres of pasture to control the competitive brush. Ray Nester has chained 250 acres. Chaining will give the grass a better chance to survive when it does rain.

SPEAKING OF SPORTS

Owls End Year

The Hondo Owls found their baseball season—and their year of sports—end rather abruptly last Monday evening. Hondo and Crystal City were matched in a best 2 out of 3 series for the Bi-District Crown and the visitors made the series as short as possible.

Crystal Wins 1st One

The Owls went to Crystal last Friday and lost a close 6 to 5 ball game. Richard Schulte did the mound work—his control got him into some difficulty and the Flock was unable to outscore their host. Jerry Muennink came thru with a home run for the Owls' biggest blow.

Owls Falter

Then Monday night Crystal City came to town and went home with a 5 to 4 win, after everyone thought a win was in the bag. The Owls lead 4 to 1, going into the final inning—2 men were on—and 2 strikes on what could have been the final out—when things began to happen! The hitter, after two very feeble swings at Hartman's fine curve ball, finally met one that went to right-center for a double, making the score 4 to 3. Then a soft single just out of reach of shortstop Schweers, brought in the tying run. The next two innings found the Owl bats absolutely dead and Crystal got the winning run as a gift in the ninth. It developed like this... a walk—a steal of 2nd to 3rd on a passed ball—and then the run scored as a sure third out failed to develop. It was an easy waist high bouncer to short that W. J. Schweers fielded well but threw a bit wide to 1st and Schulte was unable to hold on for the catch. That was the ballgame, for in the last of the 9th the 1st two Owls went out—Bull Balzen walked—Johnny Meyer then got 3 straight balls and was ordered to take 2; he did, and then was unable to latch on to the next pitch and went own swinging.

Alvin Hartman pitched himself a fine ballgame for 6 innings, allowing but 2 hits, and had his opponents swinging weakly and ineffectively at his sharp breaking curve. Alvin had a bit of trouble getting his fast ball where he wanted it, so he worked his curve a great deal. Jerry Muennink finished out his Owl career in fine fashion as he lashed out bullet double down the left field line and then uncorked a tremendous triple to center. Jerry also protected home plate well as one would be scorer bounced off like a golf ball on a tee. The game was a hard one to lose, but it was typical of baseball—anything can happen in a ball game and it usually does. On the other hand, it was a big win for Crystal and they deserved it for not giving up when all seemed lost.

Sooooo, with the final out, it wrapped up the Owl activity for the year 1955-56—and a good year it was. . . . A Co-Regional Championship football team, a fine basketball club (with bright prospects for next year) and a District Champion baseball club.

Texas

Bully Gilstrap of the University of Texas was ready with "letters of intent" in case the Owls lost the Crystal ballgame. A boy cannot sign up 'til his eligibility is over. Big Richard Schulte had his mind made up... he wanted to go to Texas, but Jerry was about sold on A & M. Gilstrap must have had his selling points

ready, for he got both Richard and Jerry to sign letters of intent to Texas. Pete Angermiller is still undecided between A & M and Texas A & I, but we have a hunch it will be A & M. All Owl fans will follow the future of these three boys with live interest, for all are fine footballers with a strong chance to make good in one of the nation's toughest leagues. It is a hard row to hoe, but these are not run of the mill boys and they will give it all they've got, and whether they turn out to be All-Americans or just squaddies, we are all happy over their athletic scholarship that will give them their college education.

Gilstrap's wire back to Austin went something like this. . . . "James (A&M Recruiter) struck out. . . . Gilstrap gets Home Run. . . . Schulte & Muennink in the fold".

Hondo Golf Tournament

The Earl V. Riley Invitation Golf Tournament, the 1st for the Base course, will be unreeled this Saturday and Sunday. This 1st tournament is a sort of "home folks" affair, as no effort was made purposely to interest out-of-towners. That will be a project of the future and the tournaments will then grow in number, in interest, in quality and in prizes.

Hwy. 90 Round-Up

The Hwy. 90 Loop is all tied up in a 1st place knot as the result of last week's play. Castroville, D'Hanis and LaCoste are at the top with 6-2 records and the HAB close behind with a 5-2 standing.

The HAB, with sharp lefty John Brose on the mound, ran all over the Hondo Braves, with a score of 18-5. Brose was effective as usual, and the Braves' fielding and stick work was definitely off. Harold Schweers and Merle Wiemers worked on the mound. Mgr. Parsons will have a new batch of players next time out. The Braves will really have to show new spirit along with the new blood if they are to make the play-offs.

D'Hanis came out on top of LaCoste 6-1 to throw the No. 1 spot in a 3 way tie. Each club got 6 hits, but the Pirates got the most mileage out of them, due a great deal to the generosity of the LaCoste pitchers. They gave up in the neighborhood of 13 walks.

Harlan Wolff was the D'Hanis hurler again last Sunday, and now D'Hanis pitchers and defense have given up only 3 runs in 3 games and 2 of these were unearned!!

Castroville had very little trouble with winless Quihi, winning something like 11 to 0.

The HAB will play the Corpus Christi Naval Air Station Friday, June 1st, at 8 p.m., at the High School park in Corpus Christi.

A meeting was held last Monday to lay more plans for the summer baseball program.

The main item of business was getting managers for the 12 teams. This is something still not completely solved, and adults who want to see to it that ALL the boys get a chance to take part in the program should step forward NOW and not after 2 or 3 teams need be dropped for lack of adult leadership. All people willing to help in the program, in any way, should advise President, C. D. Sadler or Sec'y-Treas. W. S. Porter, or Bob Nations.

The Managers in the four (4) team Senior (Pony) League are as follows:

1. Wayne Seigler
2. John Tondre
3. Monte Williams & Glenn Schweers
4. Tom Mosely - Arthur Galucic

The Managers in the 8 team 9-12 year old Junior League are:
1. James Richter, Jim Rogers, Harry Haltman
2. Maurice Zerr, Jim Grey, Dr. E. B. Vincent

4. Lt. Dick McDowell
5. Leo Kilmer
6. Pilo Rameriz & Isable Lopez
7. Jack Hartung, Arnold Mussman & Bob Faseler
8. Jesse Stephens

The Managers met Wednesday night to place the boys now signed up on teams. When the job is complete, the list will be printed in the Anvil Herald.

LETTER TO THE EDITOR

Dear Sir:

On Monday of this week the Medina County Commissioners Court convened as a county Board of Equalization. J. H. Adair, Guy Mayhew, and I appeared before the Board and asked that the County and State valuation on land located in the Medina County portion of the Bexar-Medina-Atascosa Water Improvement District No. 1, commonly known as Medina Irrigated farms be lowered to a figure approximately the same as comparable non-irrigated land.

We discussed the fact that we had been without irrigation water for several years and we have no way of knowing when, if ever, we will have adequate irrigation again.

We are happy to report that Judge Rothe and each of our four County Commissioners unanimously agreed that under the circumstances our land values were very much too high. They agreed to and did lower the per acre value from \$18.00 to \$10.00. They reserved the right to raise the valuations later in the event that irrigation water ever becomes available again. This applies to every acre of land in B.M.A. No. 1 located in Medina County.

The Court realizes that all land in the area is not of equal value. They suggest that next year each land owner render his property at its true value based on amount of improvements, land classifications and land use. The purpose of this letter is to publicly thank the commissioners Court for the kind and courteous manner in which they received us and for the prompt and constructive action that they took in behalf of the people in the irrigation district.

Sincerely,

John Tom Kirby

Comets Make It 3rd Championsip In Row

The high-flying Comets of St. Louis High School in Castroville took their third Academic League Baseball Championship in a row as they went through a league play undefeated. The Castroville lads overpowered Peacock and T.M.I. in their final games of the season and St. Gerard's forfeited their game to the Comets. That gave the Comets a 10 - 0 record.

Kadets Routed

After a week's rest to recover from the Houston Tournament, the Comets played host to the Kadets of Peacock Military Academy. The Comets edged ahead in the early innings and then blasted the soldier boys for 7 runs in the 4th and 7 more runs in the 5th. Lutz pitched for the Comets and looked a little shaky in the first two innings. After that he could coast to his eighth win of the season. He relaxed again in the sixth and allowed in 4 more runs but the St. Louis team was so far ahead that it really didn't matter. The Peacock coach decided not to prolong the agony and the game was called at the end of the sixth with the score 18 to 4. Leading hitters for the Comets were R. Tschirhart, who got three for three, Etter with three for four and D. Haby with three for five. Wilfred Haby hit the only home run.

T.M.I. Trounced

For their final game on the season, the Comets played the T.M.I. Although the game did not affect the standings since the trophy was already the property of the St. Louis team, still the boys wanted to keep their league record unblemished. Again, they unleashed a powerful hitting attack that sent the Panthers reeling and took the game 17 to 1. Etter pitched his final game in Comet uniform, winning easily. Dennis Wengenroth also celebrated his final game by banging out 3 for 5. Wilfred Haby and Henry Keller also played their last game for St. Louis High. Lutz gave promise of plenty of power for next year as he collected 4 for 5.

Looking over the totals for the whole season, we find that in collecting two trophies the Comets' team average was a very healthy won 19 games and lost only 6 for a .760 mark. The team bats as Etter's .410, Groff's .396 and such individual batting marks .312, and this was fattened by Steve Haby's .376. Two other Comets hit over .300; Dennis Wengenroth hit .337 and Lutz .307. Lutz also had a 7 - 1 pitching record; Etter won 7 and lost 4; Groff was 4 - 0 and Jungman got credit for one loss.
